See you at the MAC!

The Mooseheart Activity Center (The MAC)

During the Moose International Convention in Las Vegas this summer, it was announced that Moose Charities and Mooseheart will combine their efforts and initiate a 3-year campaign to fund a new community project at Mooseheart. The goal of the project is to raise \$8,000,000. The project will consist of:

- A new recreational building for the students
- New street lights
- Electrical upgrades
- Demolition of 2 buildings (rec. center and Brandon home)

This new project is considered to be a valuable asset to the Mooseheart Community and we need your help! We envision a thriving hub of activity for our youth. This will offer many options that help benefit both the body and mind through both physical activity and social opportunities. Did you know that scientific research proves that encouraging children to engage in activities after school supports their development? The **Mooseheart Activity Center** will create a sense of belonging, improve social skills, provide academic support and a safe environment that builds confidence.

Your donation will help create our future! www.moosecharities.org
